

# Community Sports Network Info Evening

## Access Local Funding & Have Your Say!

The 10 Community Sports Networks (CSNs) are local groups made up of sports clubs and organisations which have been set up in each of the Hertfordshire district and borough council areas. They help deliver sports programmes and coordinate activity in your local area.

The CSNs provide the opportunity for football clubs to meet likeminded people, source funding and obtain support on key issues such as volunteers, school links and facilities. They also provide your club with the chance to have a more powerful voice in raising concerns about sport in your area.

The Hertfordshire FA have teamed up with the Herts Sports Partnership to provide an informative evening event which will explain why your club should get involved with your local CSN. In addition to an overview of the 10 Hertfordshire CSNs you will also have an opportunity to hear from Football Clubs who are already benefiting from their local CSN and meet the Chairs of CSNs from across the county.
